

Industrial VivoCam L2+ Managed PoE Switch

L2+ Managed Gigabit Ethernet • Managing IP Surveillance • Surge Protection 6KV • -40°C ~ 75°C

The AW-IHT-1271 is an Industrial 8-port Gigabit PoE port (Supports 802.3 at/af, and total up to 240W) + 4-port Gigabit SFP L2 plus managed PoE switch with a wide operating temperature range from -40°C to 75°C and supports surge protection per port up to 6KV. The AW-IHT-1271 combines high hardware performance and environmental flexibility for use in outdoor surveillance, outdoor telecom, heavy industry, factory automation and transportation applications.

The AW-IHT-1271 supports surveillance features such as Topology/ Floor/Map views for controlling, understanding network topology and device status. It not only features surveillance network environment set up functions, but also troubleshooting and traffic monitoring functions which help users to clarify and troubleshoot any connection and device issue. In addition, the AW-IHT-1271 also supports Rapid ring, a redundancy proprietary protocol with convergence time within 20ms and up to 250 switches.

Key Features

Managing IP Surveillance

- The Root VivoCam Will Auto-Sync With All VivoCam Sub Switches
- \cdot Auto Discovery and Classification of Network Devices
- · Batch Camera Configuration File Import & Export
- · Batch Camera Network/Login Configuration
- · Auto Generated Surveillance Topology View
- · Easy Tag VLAN Configuration in Topology View
- · Smart Device-Management in Topology View
- · PoE On/Off Control in Topology View
- Display IP Camera Live Stream in Topology View, Floor View and Google Map View
- · Supports Discovery of ONVIF IP Cameras

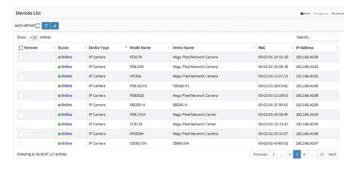

Layer 2 Feature

- · Supports DHCP Server
- \cdot Supports IPv4/IPv6 L3 Static Route
- · Supports IEEE802.1Q VLAN (up to 4096), Double Tag (Q-in-Q)
- \cdot Supports IEEE802.1v Protocol VLAN and MAC-based VLAN
- Supports Rapid Ring with Convergence Time within 20ms and up to 250 Switches
- · Supports 802.1d (STP), 802.1w (RSTP) and 802.1s (MSTP)
- Supports IEEE802.3ad Link Aggregation Control Protocol
 (IACP)
- · Supports SNMP v1/v2c/v3 for Management
- · Supports Access Control List (ACL)

Feature Highlight - Managing IP Surveillance

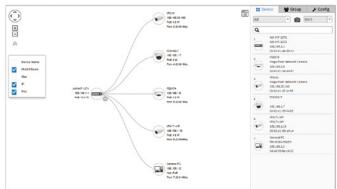

Auto Discovery

AW-IHT-1271 can automatically discover any IP devices such as network cameras, video servers, CMS and NVR with a simple click of the mouse.

Graphical View - Topology View

Auto-generated Topology View allows administrators to quickly view and export a complete network topology in SVG/PNG/PDF format for easier inspection and planning.

Graphical View - Floor View

Upload custom floor images. Floor View allows for quick location of deployed surveillance devices and for export of this view in SVG/PNG/PDF formats for easier inspection and planning.

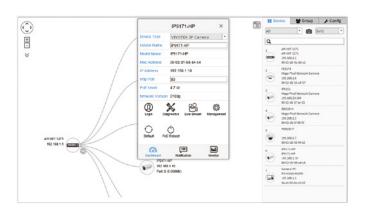

Graphical View - Google Map

Locate surveillance devices on Google map to simplify multi-site management of any large scale deployments.

Device Management

Easy Network Configuration, Open Camera Web UI, Diagnose Camera Connection and Cable Status, Display Camera Live Stream, Change Camera Network Setting, Restore Default, PoE consumption, PoE on/off control.

Device Status

Device Status page to show the real-time verification result of each connection between switch port and device.

Feature Highlight - Managing IP Surveillance

Easy-Tag VLAN

Hierarchical topology view allows administrators to easily build a VLAN.

1 | Device | Mark Group | Family | F

Live Stream

Display live streaming camera window in Topology View, Floor View and Google Map View.

Application

Rapid Ring

Outdoor Surveillance Solution
