# SMB Surveillance Solution

• One Stop Shopping • Efficient Management • 4/7 Cloud Monitoring • NDA

Small and Medium-Sized Businesses include a vast range of enterprises, including shops, restaurants, schools, offices, factories, banks, and other fields. All however, share a desire for comprehensive security for the protection of property, information, personal safety, and intrusion prevention. With VIVOTEK's end-to-end surveillance solutions, business owners can now achieve either single point or multi-point enterprise intelligent monitoring management. With fully NDA compliant products and cybersecurity protection from Trend Micro, VIVOTEK provides a one-stop shop for security solutions that are cost effective, multi-functional, and able to be viewed from the cloud.

# Total Integrated System

Easy Setup, Cost-effective, One Stop Shopping

VIVOTEK's IP surveillance system provides a comprehensive product line of IP cameras, Core+ NVRs, and VIVOCLOUD monitoring service. This allows for fully integrated systems that provide long-term stability, as well as savings in both costs and installation times.

## Setup Time Saving

IP Cameras

### Camera Management Tool with Shepherd

Shepherd, embedded with auto-detect network devices and device management functions, enables the easy set-up of multiple cameras at once.

Core+ NVR

### One Button Setup on NVRs

Simple to install with 3 steps, providing a highly intuitive experience for system set-up within 2 minutes.

VIVOCLOUD

### Easy Connection with VIVOCLOUD

Quick scan QR code on the screen, start your cloud monitoring in App anytime, anywhere.

## Smart Cost Reduction

### IP Cameras

1. All embedded with Trend Micro Cybersecurity software.
2. Designed for the needs of small-to-medium business.
3. Smart Motion Detection for detecting only people activities.

### Core+ NVR

1. Core+ firmware provides cybersecurity management and supports VCA event search in Smart VCA enabled cameras.
2. Support ONVIF protocol.
3. No additional fee for fixed IP, users can remote connect NVRs via VAST 2 server to fulfill multi-site management.
4. With PoE plug-in and management functions, owners will not need to purchase additional PoE switches.

### VIVOCLOUD

1. Free cross-platform cloud service on Portal & App
2. 24/7 surveillance monitoring
3. Lite CMS for small-scale applications

# Minimize Risk and Maximize Efficiency

Pre-event Notification, Real-time  
Live View, Post-event Quick Search

The diagram illustrates a three-stage security process:

- Pre-event – Protection**
  - Trend Micro Multi-Layer Anti-Intrusion Software
- Real-time – Notification**
  - Cyber Threats with Cybersecurity Alarm Management
- Post-event – Report**
  - Event Reports on Core+ NVR

Visual elements include icons for protection (shield with eye), notification (shield with bell), and report (shield with bar chart), along with images of Trend Micro security cameras and a Core+ NVR unit.

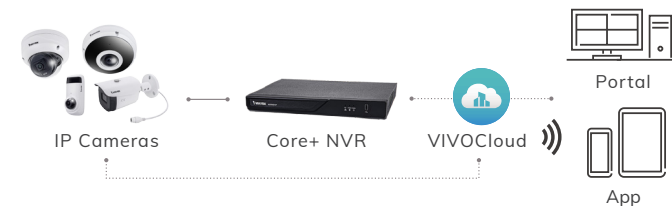

# Cross-Platform Cloud Surveillance

## VIVOCLOUD App & Portal

VIVOTEK cloud service – VIVOCLOUD provides 24/7 smart management on App and Web Portal as a lite CMS. This provides remote multi-site security monitoring, allowing owners easy access, and the ability to share devices, receive push notifications and change camera settings.

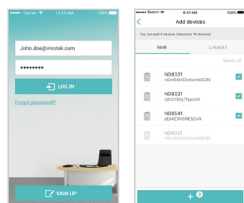

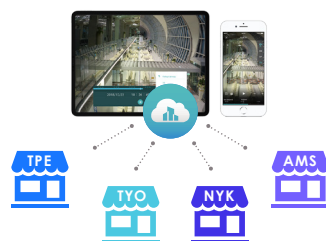

# VIVOCloud Portal

(under no 4G/Wi-Fi scenarios)

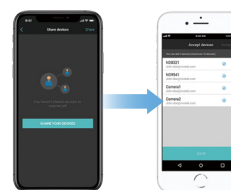

## Easy Setup, Quick Start

Automatically search all connected devices, no more port forwarding, no more VPN setup, simply turn on the VIVOCloud service on your VIVOTEK device.

## Scaled to Suit Your Business

Expandable network with up to 16 devices (IP cameras or NVRs), providing centralized management of cloud surveillance.

## Share Devices, Co-Management

Share devices on up to 4 different VIVOCloud accounts, simple account authority management.

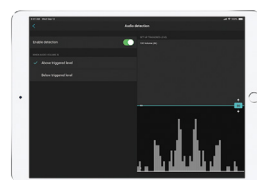

## Plug-in-free Portal

No need to install any software, log-in with the same VIVOCloud account and view NVR playback via Chrome or Firefox on both Windows and mac OS. All settings are synchronized with VIVOCloud App.

## Get Alerts and Quick Playback

Push alerts to owner's mobile device, get suspicious video directly with edge storage recording, rapid playback, and view notification history.

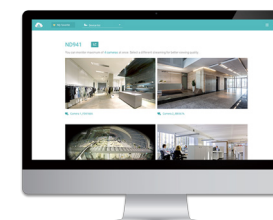

## Camera Configuration

Robust cloud surveillance can configure all settings with the VIVOCloud App including camera setup, alarms, push notifications, schedule recording, and more.

## Fisheye Dewarp

Fisheye Dewarp of VIVOTEK 360° cameras can also be executed in the mobile App. Users can choose 10, 1P, 1R modes of fisheye cameras and use ePTZ to view streams from different angles.

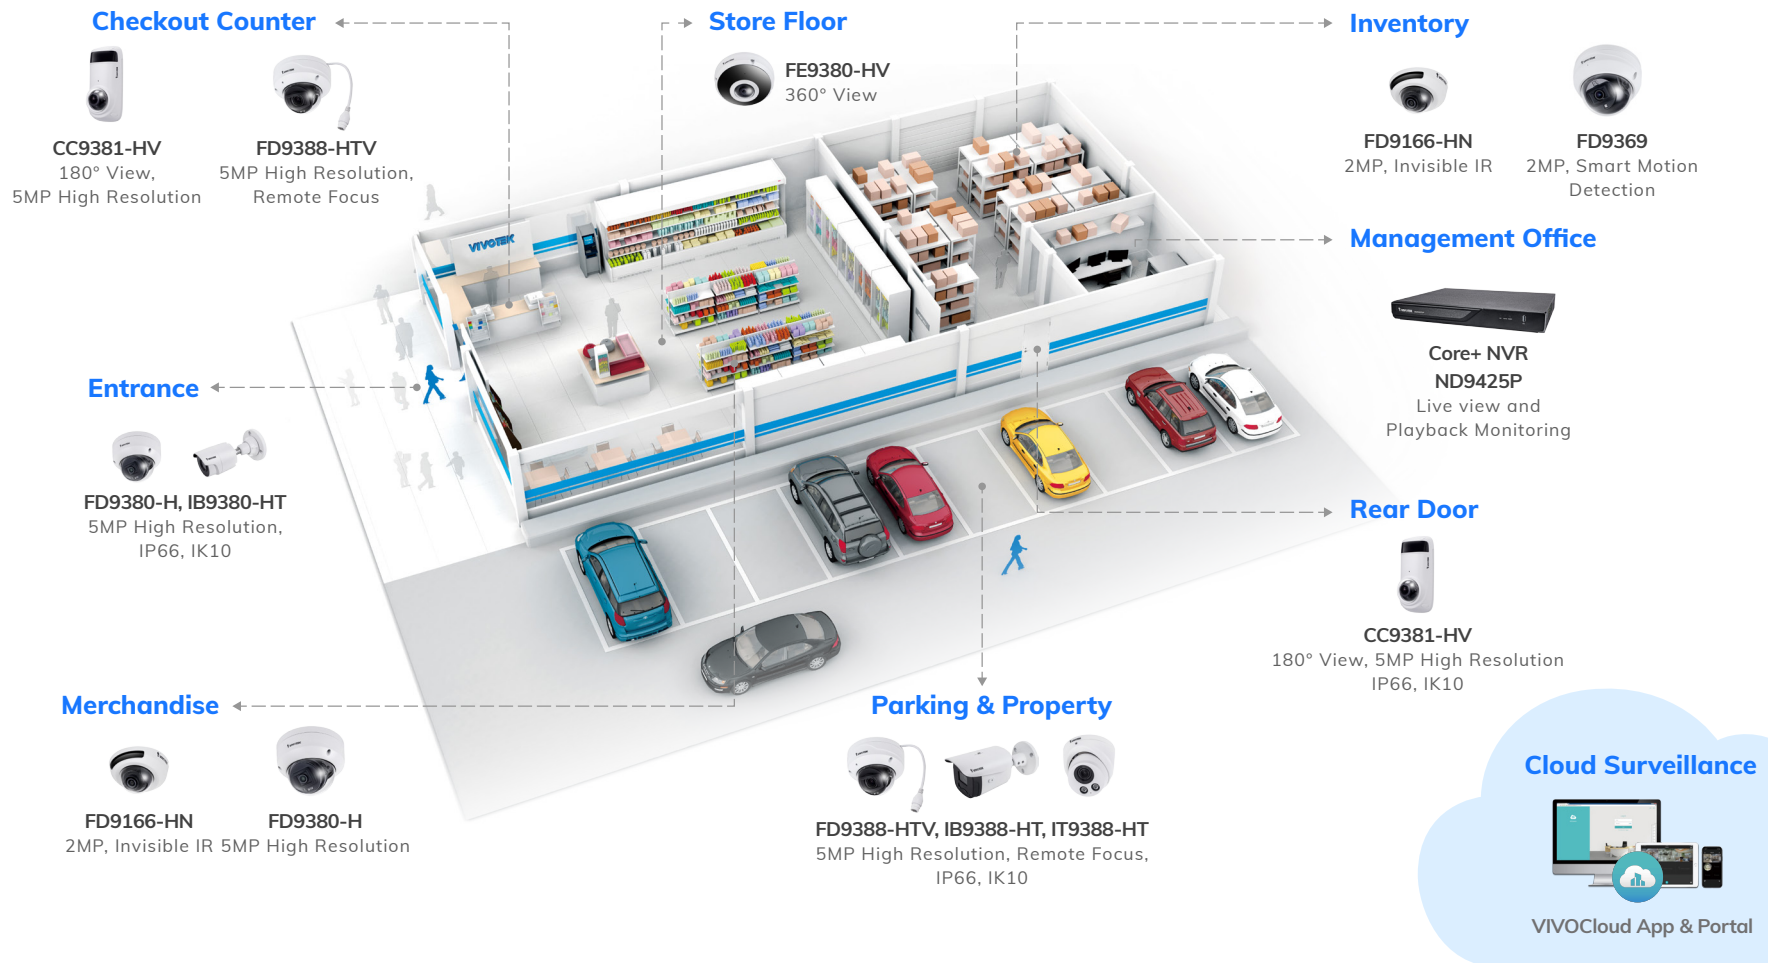

## Intuitive Monitoring

Adjustable layout for live view and playback, with device management and alarm notification, owners can easily manage their business with cloud surveillance.

# SMB Application - Retail

Robust security and surveillance are key components of the retail store infrastructure. Protecting your investment in inventory and maintaining low shrinkage rates with VIVOTEK SMB solutions are critical to long-term business success.
